# TIME FOR A CHANGE

## A Blue Revolution believes:

Out of the EU but closer trade links with the real countries of Europe.

More workplace democracy for public sector or publicly funded workers.

Cut state bureaucracy but not the public services we the people pay for and need!

Deliver education suited to all abilities and scrap SATS and Student Debt.

Stop people getting rich at the ordinary taxpayers expense.

The only workers' party is  
A Blue Revolution a party of  
the people, not the state!
