

On Thursday 4th May VOTE CHARLOTTE

HALDERSON, Charlotte
Wyberton Ward
Blue Revolution

On May 4th you will have the opportunity to elect two new local councillors for the Wyberton area. Please consider making one of your two votes a vote for me - Charlotte Halderson.

I'm a Boston born & bred, hard-working individual with a friendly nature and a compassionate heart. It would be a privilege to represent you as your local councillor and help make some of the desperately necessary changes needed to get Boston back to it's best.

If elected, I intend to use a transparent and no-nonsense approach, communicating openly and honestly with residents.

This is something which I feel has been sadly lacking over the last four years.

I believe that the political system is broken at all levels and as a member of Blue Revolution, if elected I am still completely free to be my own person within the group, form my own opinions,

and speak freely and vote freely without being coerced or forced to vote against my better judgement by a leader or anyone else. All things which are incredibly important to me and which are not luxuries afforded to the members of certain other groups once elected.

Boston in 2023 faces a huge web of interconnecting issues.

Litter, fly-tipping, drug use, homelessness, anti social behaviour, potholes, lack of community spaces, lack of diverse small and large businesses being just a handful or them. If elected I intend to start chipping away at those issues, helping to put plans in place to ensure

long term, positive change for the better. I understand that certain issues are dealt with at a county council level and beyond. However, I do not believe that we should simply accept things the way that they are, if change is clearly needed.

If, like me, you've thought for many years that 'there MUST be a better way to do things'...

...then please vote for me and allow me to help make some of the positive changes to our town

that I know I have desperately wanted to see. Thank you so much for reading.

THE POLITICAL SYSTEM IS BROKEN!

- ▶ Do you believe the political system in Boston does not represent you?
- ▶ Do you feel that regardless of which party or group is in charge in Boston, the system will continue to represent the few and not the many?
- ▶ Do you have little faith in how politics works?

If, like us, you do. You are in luck because Blue Revolution is a political platform that is working within the system to change it. Our elected councillors will be much more representative.

Our first step in this revolution is to campaign to remove the whipping

system from politics. This means that political parties and groups will no longer be allowed to force, conjoin or even bully elected individuals into voting in a certain way.

Once the whipping system is gone, you will have truly independent elected representatives. Politicians

will have to vote on their conscience and not 'follow the party line'.

By electing Blue Revolution candidates at the Boston Borough Council elections you can be sure they will be representing you because we will never tell our members which way to vote.

MORE INDEPENDENT THAN THE INDEPENDENTS

With how we are set up to work the system, you can see how independent we are.

BEFORE THE ELECTION

AFTER THE ELECTION

Independents after the election will have to form groups to get on committees and will have a leader who usually tells its members how to vote.

The traditional political parties have favoured the whipping system for many years, done nothing to change it and have always been conflicted between their party and the people.

Blue Revolution 'works the system; by going into the election as an electoral commission recognised political group. Once elected this enables our councillors to promote their independents and thus to vote freely and to truly represent you.
